- **Challenger**
- **Deputy**
- **Friend**

AlpineAI

AlpineAI delivers the AI Platform for Mission-Critical Sectors in Switzerland and Europe where trust, compliance, security and efficiency are paramount: In Government, Healthcare and Industry.

It is an innovation catalyst & protective shield, empowering society's foundational institutions to join the AI Age and forge a safer, smarter, and more humane future.

Swiss Made. Rock solid.
With a human touch.

Your brain – where **entertainment takes place**

Today's topic – **Amazing Innovation (AI)**

«The biggest danger is not that machines take over the world, but that we become too much like them.»

Gerd Leonhard, futurist (CH)

www.futuristgerd.com

Today's topic – The future of humankind

www.futuristgerd.com

Today's topic – The future of humankind

Who will be the next Michelangelo: **A new Renaissance?**

Michelangelo 1504: David

Origin of the Renaissance 1.0

- **New tech: Book printing**
Revolution in know-how access, new mindset ,
mass dissemination of opinions
- **New Perspective: First mirrors and telescopes**
Self-esteem, purpose crisis, breaking the habits
- **Accumulation of Wealth: Banking system, 80% death**
This led to breakthroughs in arts and science

The Renaissance was an explosion in know-how access and sharing

First signs of a Renaissance 2.0

- **New tech: Social Media, Internet**
Revolution in know-how access, new mindset, mass dissemination of opinions
- **New Perspective: GPT tech, Gen-Z, Advent of AI**
Self-esteem, purpose crisis, breaking the habits
- **Accumulation of Wealth: Tech giants, Tycoons**
Monumental breakthroughs in arts and science

The Renaissance was an explosion in know-how access and sharing

Michelangelo

Leonardo Davinci

Steve Jobs

Elon Musk

Demis Hassabis

- 1. The global AI race is heating up – Outlook on state of the art**
AI spirit, what the world is talking about AI, where blocks are clashing
- 2. Beware of the AI hype – There is no AI yet**
AI today is tinned human intelligence, first signs of Renaissance 2.0
- 3. Be a Cyborg – Tool up heavily, ride the wave**
Incorporate latest tech, learn about AI in order to stay in the game

Team Robot and / or Team Human?

Let us embrace latest technology and tool up team human

Team Robot and / or Team Human?

Gêrd

Can humans keep up with the digital revolution?

Keep in mind:
Technology is
exponential
but Humans
are linear

The digital transformation of our lives is **Today**

Meanwhile in Switzerland: IT Giants & FinTechs vs. Banks

Regulations: Do they really protect us from competition?

Bundesverfassung

30'000 words

Bible

700'000 words

**Liquidity risk measurements,
standards and monitoring (Basel III)**

> 2'000'000 words
... or 5440 pages

Interfacing human with technology – The skills landscape is shifting

VOLATILITY

UNCERTAINTY

- outdated -

COMPLEXITY

AMBIGUITY

Human facing the future – **Important skills**

Imagine

Transform

VELOCITY

UNORTHODOXY

CO-CREATION

AWESOMENESS

Understand

Observe

As technology gets commodity, the Human Factor becomes key

Human worker 3.0 – Technology gets closer and incorporated

Employee 4.0 – Maybe a lot of leisure time for humans

Keep PACE - Go all-in on Entrepreneur tech: Personalization, Automation, Collaboration and Exploration

Personalization - Search is dead, embrace generative AI

Automation - Go all-in on AI (“free the human worker”)

Collaboration - Collaborate with the Swiss AI ecosystem

Exploration - Get to the future before customers, welcome them there

The AI transformation of all our lives is ahead of us

It is up to **you** what will and what should **not** be automated

THANK YOU.
